When public contests in physical skill and strength are "cooked," and the assemblage which attends in the hope of seeing an honest struggle between two men for supremacy is bluffed by a defeat previously agreed upon between the contestants for their pecuniary advantage and that of a few "sports," who are let into the thing, an outrage is committed and a blow is aimed at legitimate sport.

Any professional who is guilty of such conduct should be barred from all future competitions. This sort of thing has occurred several times too often. HAMM and TEXMER are the last examples of hard-faced impudence in a " put up " defeat, and they air it, too, daily.

In the name of honest manly ambition, kill this sort of thing !

RACES? OR DIVIDENDS?

The stockholders of the American Jockey Club protest vigorously against any more racing at Jerome Park which will coincide with racing at the New York Jockey Club or any other which will injure them. The city has considered Jerome Park as a desirable spot not for running horses, but for standing water-viz., a storage reservoir.

Don't Henpeck Nor Hector Him.

Recipe First-Study his characteristics. Sec ond-Give him practical demonstrations of love. such as kisses, caresses, cheerful disposition, your entire confidence. Scorn the neighbor or relative who brings you tales as to his conduct. Drive the monster jealousy from your door.

Don't henpeck him or complain if you don't get as good clothes as your neighbor; sympathize with him in his efforts to support you.

If he likes beer or wine always humor him by having some in the house. Be not suspicious should you see him conversing with ladies.

Be cheerful always. Find no fault. Be tidy, be true, be generous. Be not selfish. Do not allow him to go broke, with money locked up. Don't expect him to stay home every night, nor demand to know where he was while out.

Heroic Treatment, but It Worked. To the Editor:

My husband, when I first married him, three years ago, wouldn't think of going out at night, but after we were married about six months Charles commenced to find an excuse to be out. I found out it was going around with the girls he was. Well, I got an introduction to two of his best girls and invited them to my house one evening. When Charles came in I called him to introduce him to the girls. When he saw them he looked very foolish, and at last he out and told them he was married. The girls were so angry that they went out without their hats, and Charlie—well, he stops home now.

This Charm Has Worked Thirty Years.

My recipe to keep a husband at home is to make his home as comfortable and pleasant as your circumstances will allow.

When he comes home from his daily toil have his home cheerful, his wife and children neat and clean, and always meet him with a smile and a pleasant word, and he will think his home the dearest place on earth. He will want no better place to spend his evenings. I have been married over thirty years and have always found this recipe to work like a charm. A Happy Wife and Mothes.

At first the wife must tell her husband that she is lonesome and cannot endure neglect. After this, every evening her husband has to go out, she must let him know that she has been out, too. If he wants to know where she has been, why, say: "Out for recreation," or a stroll. Then load him on to imagine that he has a rival who would gladly take his place. He will then begin to grow lealous, and think it is about time to remain at home.

THE NOVEMBER 'CENTURY."

With the November issue of the Century Magazine begins its twentieth year of prosperity, and the occasion is celebrated by the presentation of an unusually interesting numpresentation of an unusually interesting number. Prominent among its features is the opening chapters of the autobiography of Joseph Jefferson, and it contains many interesting reminiscences of the boyhood of that famous actor. Novels from the pens of Frank R. Stockten and Amelia E. Barr are also begun in this number, the former's being an account of the remarkable voyage of the Merry Chapter, and the latter's, a love story in the days of Cromwell. The first of the "Present Day Papers," by Bishop Potter, Soth Low and others appear, a series of timely social questions by prominent writers, associated for the purpose. "Street Life in Madrid," "The Groller Club," by Brander Matthews, and a new story by Mark Twain. "A Connection Yankee in King Arthur's Court," are among the chief features of this remarkable number.

PATENT BOXES DIDN'T WORK

A hot local fight is in progress in Hudson County and Jersey City.
Under the new law there are ten Freeholders

to be elected in place of twenty, and a new office. Director-at-Large, is created as the head of the Freeholders.
A bitter contest is in progress over Assembly-men in Hudson County and matters are some-

men in Hudson County and matters are somewhat mixed.

James Murphy is the regular Democratic nomines in the Third District of Jersey City, C. D. J. Noelke is his kicking Democratic opponent, William Midlige is the regular Republican candidate, and John Watt is his Republican opponent. A Labor man is a fifth choice.

In Jersey City the election opened this morning in somewhat of an excited and confused state, owing mainly to the failure of some of the inspectors to work the new patent ballot-boxes. There was difficulty over these new contriv-

There was difficulty over these new contrivances to receive votes in sixteen precincts, and the Company, who guarantees their successful working, sent men to instruct the inspectors to work them.

In the mean time the ballots were received and denosited in cigar boxes, and afterwards dumped into the patent receptacles.

John H. Davis, who was appointed inspector by the Fusionist, at the polling-place in Truck No. 2's house in Ninth street, was refused admittance this morning by the regular inspectors after he had tried to force his way in, but no row occurred over the matter.

Rev. Dr. Rylance Resigned Under Charges of Immorality.

Ha Now Sues Two Yestrymen for Libel and Conspiracy.

His Resignation Withdrawn, and He Still Claims to Be Rector.

Vestryman Quackenbos Maintains that the Charge Will Be Proved in Court.

The parish of St. Mark's, one of the oldest, wealthiest and most aristocratic Protestant Episcopai churches in this city, has furnished another sensational scandal, which has thrown its entire congregation into a state of the utmost excitement and turmoil.

The first sensation occurred eleven years ago,

almost to a day, when the body of millionaire Alexander T. Stewart was stolen from its vault in the churchyard, the unavailing search for which furnished for months afterwards an allabsorbing topic of interest to the whole country. The present sensation arises out of charges of immorality and unchristian conduct against the venerable rector of the church. Rev. Dr. Joseph H. Rylance, who for eighteen years has been

of the most influential members of the congregation. These allegations have apparently hopelessly divided the congregation into two bitter antag-

its pastor, which have been preferred by some

As a result, Dr. Rylance was induced to send his resignation to the vestry, but he withdrew it before it had been acted upon, and has now begun suits for libel against Lawyer Nicholas Quackenbos, and against Mr. Quackenbos and William V. King, formerly Secretary of the New York Cotten Exchange, loietly, for conspiracy to slander him in his occupation as a clergyman, Mr. King is chairman of the vestry of the church, and the former the counsel for the

to slander him in his occupation as a clergyman.

Mr. King is chairman of the vestry of the church, and the former the counsel for the Board.

Dr. Rylance proposes to vindicate himself in the courts, since the charges, he claims, were brought secretly, and he was not given an opportunity to defoud himself, and was not accorded so much as a hearing.

According to John Brooks Loavit, who is Dr. Rylance's counsel, the charges against the venerable clergyman have never been definitely formulated.

Dr. Rylance was abroad last Summer when the matter came to a crisis, and he received a letter from William V. Kinz, which purported to be authorized by the vestry, in which his resignation was requested on the ground that charges of improper conduct had been preferred against him.

The nature of the charges, Mr. Leavitt says, were only hinted at, and Dr. Rylance in the heat of indignation, immediately forwarded his resignation, to take effect on Aug. 31.

On that date Dr. Rylance returned home and, learning by rumor the serious nature of the charges, which had been traced to their source, although every attempt to obtain a copy of them failed, he notified the vestry that he would withdraw his resignation.

A few days afterwards the vestry met, and it is claimed that they accepted the resignation without oaving any attention to the notice of withdrawal sent by Dr. Rylance.

As the matter now stands, Dr. Rylance, acting under the advice of his counsel, Mr. Leavitt and Stephen P. Nash, claims to be still the recovery in accepting his resignation, which he had withdrawn, is call and void.

The latter, on the other hand, assert that their action is perfectly legal and valid, and that Dr. Rylance is no longer rector.

The suits were brought about three weeks aco, and ever since that time rumors have been flying thick and fast in the parish, though up to the present time they have been successfully kept from the knowledge of the public.

According to Lawyer Leavitt the only thing atories about improper conduct of Dr. Rylance tow

resign.

Another of the indefinite charges was that, in attending meetings of the Nineteenth Century Club, where he had delivered an address, he had been guilty of improper conduct in associating with infidels.

with infidels.

A remarkable feature of the case is that, although it appears that these stories had been whispered about by the gossips of the congregation for a long time past, not a word of them reached Dr. Hylance's ears until he returned from Europe in August last.

The death of his wife a year ago had deeply affected him, and he went abroad last Spring to seek rest, for he was worn out with his work and his trouble. None of his friends, if they had heard the stories, had mentioned them to him, regarding them as merely idle gossip.

It is alleged that Mr. King, as Chairman of the Board of Vestrymen, had asserted that the charges were true, and the other vestryman accented the statement without further investigation. When asked for a copy of the charges he had declined to furnish them, and had said that nothing could be done in the matter until the hext meeting of the vestry, which does not occur for some time.

Several of the vestrymen held an informal conference at the honse of Sexton Hamili, 111 East Teuth street, about 8 o'clock this morning. Mr. Quackenbos and Mr. King were there.

East Teith street, about 8 o'clock this morning. Mr. Quackenbos and Mr. King were there.

Mr. Quackenbos was in a state of mind over the disclosures which had been made. "We have been blaced in an entirely false position in this matter." He said, "and I would have given my check for a considerable amount to have kept the thing from the public: not for the sake of Dr. Rylance, but for the honor of the venerable old parish of St. Mark's.

"It would never have come out except for the indiscretion and improduce of the counsel of Dr. Rylance, and he has only himself to thank for it.

And I wish to state right here that the story that Mr. King and myself went around circulating these tales about Dr. Ryjance's behavior towards ladies of the congregation is a lie, and you can make it as strong as you like.

"We never went around hounding him down and persecuting him as they say. The ladies referred to came voluntarily to the vestrymen and told their stories, and we were as much amazed as any one when we first heard them."

"Dec" Watson, of Philadelphia, and John McCana, of Fishkill, acted as Gabig's seconds, and Steve Brodie and a Fishkill sprinter looked after Daiy's interests. Tom Martin, of Newburg, was the referee.

In the first round there was a rapid exchange of blows, but neither of the men appeared damaged.

Both came up smilling in the second round, Daiy led off with a terrific blow that struck Gabig squarely in the mouth, knocking out one of his teeth and drawing first blood.

The eighth and ninth rounds witnessed three knock-downs for Pisly, and Gabig was evidently a whitped man. His face was a sight, and blood flowed profosely from his broken nose, while his eyes were swollen so that he could hardly sa.

The battle was cuded in the eleventh, when Daly got in the knock-out blow. It was what is known as the "Cleary punch," which Sullivan learned from Mike Cleary, and consisted of a short cross swinging blow that caught Gabig squarely on the point of the law, knocking him out slick and clean.

Gabig was terribly punished. Both his eyes were closed, his nose was broken, and there was a big swelling on his temple, where Daly had broken his hand.
